

# COOINDA CERAMICS

Quality and Service to the foundry industry

## REDUCING TEES

- ✓ Achieve *optimum pressurisation* through the running system
- ✓ Based on a geometrically scaled design to *minimise turbulence* and *ensure smooth metal flow*
- ✓ Designed and manufactured to form an integrated system with other Cooinda products
- ✓ *Lighter and stronger* for ease in assembly
- ✓ The *high alumina formulation* increases resistance to thermal impact and abrasion by molten steel
- ✓ Smooth internal surface promoting *streamlined flow* and *reduced contaminant pick-up*
- ✓ *Accurate and consistent dimensions*

D1 (mm)	D2 (mm)	H (mm)	L (mm)	Qty Per Carton
50	40	55	110	28
60	45	65	120	15
50	65	60	120	10
65	50	60	120	10
80	65	75	170	8
100	80	105	210	3
120	100	120	260	2

### NEED SOMETHING DIFFERENT ?

Direct access to our manufacturing facilities in Australia offers the flexibility to respond quickly to your specific needs So, if you need something different

Orders can be placed directly with Cooinda on

**TEL : (03) 9729 6322**

**FAX : (03) 9729 4811**
