

COOINDA CERAMICS

Quality and Service to the foundry industry

REDUCING TUBES

- ✓ Achieve *optimum pressurisation* through the running system
- ✓ Based on a geometrically scaled design *to minimise turbulence* and ensure *smooth metal flow*
- ✓ Designed and manufactured to form an integrated system with other Cooinda products
- ✓ *Lighter and stronger* for ease in assembly
- ✓ The *high alumina formulation* increases resistance to *thermal impact* and *abrasion* by molten steel
- ✓ Smooth internal surface promoting *streamlined flow* and *reduced contaminant pick-up*
- ✓ *Accurate and consistent dimensions*

D1 (mm)	D2 (mm)	L (mm)	QTY PER CARTON
50	40	110	24
60	45	130	20
65	50	100	15
80	65	125	10
100	80	150	6

NEED SOMETHING DIFFERENT ?

Direct access to our design and manufacturing facilities offers the flexibility to respond quickly to your specific needs. So, if you need something different

Orders can be placed directly with Cooinda on
