

# COOINDA CERAMICS

Quality and Service to the foundry industry

## EZY-FLO WELLS

- ✓ *Located at the base of the down sprue or runner junction*
- ✓ *Helps prevent the pick up of sand from the wash, promoting cleaner, defect free castings*
- ✓ *The **high alumina formulation** increases resistance to **thermal impact** and **abrasion** by molten steel*
- ✓ *Designed to incorporate with the full range of Cooinda **EZY - FLO** components*
- ✓ *Accurate and consistent dimensions*
- ✓ *Available in three designs*
  1. *Double Slot*
  2. *Large Double Slot*
  3. *Single Slot*

### **NEED SOMETHING DIFFERENT?**

*Direct access to our design and manufacturing facilities offers the flexibility to respond quickly to your specific needs. So, if you need something different*
